Regional Overview

Midwest vs West

West Growth vs Other Regions

Southeast vs Northeast

Regional Strategy

Growth vs Volatility: Regional Performance Positioning

Revenue Share by Region (%)

Sales Rep Capacity by Region (2025)

Products Distribution by region

Regional growth is uneven. West drives the strongest growth but with higher volatility, while Southeast remains the most stable performer.

SALES EFFICIENCY: WEST vs MIDWEST (2025)

Regional Overview

Midwest vs West

West Growth vs Other Regions

Southeast vs Northeast

Regional Strategy

Avg Revenue per Sales Rep

West is ~2X Midwest

Sales rep expansion in both regions did not proportionally translate into revenue growth, but West maintained significantly higher revenue output per rep than Midwest.
→ Performance gap is driven by execution, not capacity.

TREND: Sales Rep Count vs Revenue Growth

Midwest Trend

● Sales Reps per Month ● Total Revenue

West Trend

● Sales Reps per Month ● Total Revenue

Southeast vs Northeast

Regional Strategy

Revenue Growth by Region (2024 → 2025)

How Volatile is Revenue Across Regions?

Customer Retention Rate by Region

Customer Growth Status - (2024 → 2025)

West leads with spike-driven growth supported by strong retention, while the Midwest continues to lag with weak growth and high customer loss. In contrast, the Southeast demonstrates consistent and balanced performance, and the Northeast shows gradual structural improvement.

What Drives Stability? Southeast vs Northeast

Regional Overview

Midwest vs West

West Growth vs Other Regions

Southeast vs Northeast

Regional Strategy

Order Frequency Distribution

Southeast maintains highest and most stable order frequency

Customer Tier Distribution 2025

Customer vs Revenue Distribution - 2025

Southeast achieves more sustainable performance through stable purchase frequency and a balanced customer mix, while Northeast relies more on scale-driven revenue.

How Do We Maximize Regional Performance?

Sales & Regional Analysis

Switch Insights

Regional Overview

Midwest vs West

West Growth vs Other Regions

Southeast vs Northeast

Regional Strategy

Southeast

- Stable & predictable revenue pattern
- Highest customer engagement
- Customer growth is stable

Northeast

- Upward revenue trend with fluctuations
- Highest revenue per customer
- Less stable customer growth

West

- Volatile revenue trend & Highest growth driver
- Strong customer retention
- Highest customer growth & lowest decline rate.

Midwest

- Revenue trend is Upward & stable but lowest contribution
- Weak customer retention
- Lowest customer growth

Southeast: Replicate and Scale

→ Actions:

- Replicate sales strategy across regions
- Maintain consistency drivers
- Expand customer base carefully
- Protect operational discipline.

Northeast: Improve Consistency

→ Actions:

- Spread growth more evenly across customers
- Reduce reliance on a few large contributors
- Build a more stable performance pattern.

West: Convert Growth into Stability

→ Actions:

- Reduce reliance on large one-off deals
- Increase repeat purchases
- Strengthen customer lifecycle programs.

Midwest: Fix Execution, Not Headcount

→ Actions:

- Improve sales rep productivity
- Focus on higher-value customers
- Reduce reliance on hiring reps
- Strengthen retention programs.

→ SUMMARY

Sustainable regional growth depends on improving customer retention, operational consistency, and balanced revenue expansion across regions.
